

MF Freezers

LABORATORY AND
LOW CAPACITY FREEZERS

- ice cream the way you like it

MF Freezers

Low capacity, self-contained Ice Cream Freezers

Two different models MF50 and MF75

MF50

- ice cream the way you like it

Key Features

- All stainless steel design.
- Cleaning-in-Place design of product contact surfaces.
- Low start-up mix consumption.
- Low capacity production.
- Suitable for laboratory testing and decoration purposes.
- Fast reaction on changes.
- Mobile.
- Accessories available as optional extras for simulation of any kind of production.
- Stable and reliable test results.
- PLC down-loading of data available as optional extra.
- Reference list available on laboratory freezer installations.

- **Freezer housing:** throughout made of stainless steel.
- **Freezing cylinder:** throughout made of stainless steel. The inner surface is hard-chromium plated and polished.
- **Refrigeration system:** Built-in compressor unit, designed for R404A refrigerant, and water-cooled condenser.
- **Air system:** for external air supply.
- **Dasher drive:** V-belts from the main motor.
- **Pumps:**
 - Model MF50: piston pump for ice cream mix and back pressure valve.
 - Model MF75: piston pump for ice cream mix and positive displacement pump for ice cream.

The operating panel includes:

- Manometer for air pressure.
- Ammeter for dasher motor load.
- Manometer for refrigeration pressure and temperature.
- Refrigeration temperature regulator.
- Start/stop buttons for motors.
- Pump speed regulator.
- Start/stop of CIP process.
- Variable dasher speed with digital display.

Capacity Range

MODEL	OUTPUT: LPH
MF 50	20 - 100
MF 75	30 - 160
